***infoUSA's High Quality Data Powers Leading Local Search Companies***  
***V-Enable Taps Into infoUSA's Database Through Strategic Alliance***

(OMAHA, NE) – infoGROUP (NASDAQ: IUSA), the leading provider of data driven and interactive resources for targeted sales, marketing and research solutions today announced its infoUSA data continues to fuel leading companies, including V-Enable, a leader in local search and advertising solutions for Mobile and Internet solutions. V-Enable will tap into the resources of infoUSA's database, giving their customers access to information on 14 million US businesses and 137 million consumers.

“By extending our partnership with infoUSA we are able to not only provide our customers with the quality of information they require but also improve our platform's overall cost structure by leveraging their core information services for both business and consumer inquiries,” stated Craig Hagopian, President, V-Enable.

“As a major player in the mobile local search arena, we realize accurate data is critical for V-Enable because their credibility is reliant on providing current and correct results for their customers,” said Jim DeRouche, President, infoUSA Licensing. “Our commitment to the highest quality of data makes this a winning solution for both companies. We are pleased to continue our relationship with V-Enable.”

Independent studies reveal infoUSA's business database has the most accurate company names, highest percentage of current phone numbers and addresses, best categorization and the least amount of out of business records, which ensures more successful and accurate results in local search and directory applications.

In addition, to provide customers with the freshest data, infoUSA makes over 26 million phone calls each year to verify and enhance the business information. It also proactively monitors store openings and closings to maintain the currency of the data.

**About V-ENABLE**

V-ENABLE is a leading provider of local search solutions powered by our proprietary search and advertising technologies, which have been built from the ground up, and specifically designed for ease of deployment, maximum monetization and relevance of results. Through V-Enable's LocalAdXchange™ and extendable APIs publishers, developers and advertisers benefit from an end-to-end turnkey platform ideal for mobile, online and digital properties. Founded in 2001, V-ENABLE is headquartered in San Diego, CA. For more information, visit [www.V-ENABLE.com](http://www.V-ENABLE.com)
